FUNDAMENTAL BAPTIST MISSIONS INTERNATIONAL

Dear Praying Friends,

Praise God from Whom all blessings flow! We stand amazed, watching God work through mortal man here in this not-so-distant land. Our four churches are marching forward, our teens came back charged from Youth Camp, our people have been faithfully giving to support missionaries around the world, and our Christian school is also going ahead full steam. Glory to God.

We have been focusing some more on our second church, which I pastor. It is located in the mountains about 20 minutes from our first church. One might think that being in the mountains, the people are sparse or live on ranches, but such is not the case. It is a very inner-city area. What actually happened is that the city grew over the mountain. We hold services there on Wednesday evenings, and we use lanterns since our building there does not have electricity.

One of the pastors here in our state held a special Teen Camp. We took our youth group to hear some challenging preaching, participate in amazing competitions, and, as always, to enjoy the camp food! Of course, it rained cats and dogs every day, and our kids returned full of mud and vigor to serve the God! My entire family accompanied the youth group, and it was truly a memorable experience. We are helping them to fulfill the decisions that they made with opportunities to serve here in the church.

We are trying something new. We had a special day for some of the young people from our routes. They stayed all day one Sunday, from our morning service until the evening service. Some of our dear members gave their time to help teach them, play games, and feed them. We served them American pizza, and we also took them to the park. It was a great time for my family to connect with some of our bus kids, and to show them personally how their pastor cares for them. We are planning more activities like these with our riders. Please pray for these young people. Many of them depend solely upon us for their spiritual needs.

We are also expanding our music ministry. We have started a new guitar class for our young people. We have several guitar players in our church, but there's always room for more. One of our faithful men, Brother Abraham, dedicates himself to this endeavor. His son Carlos also helps to teach guitar. My wife also trains our violin players, who play along with the piano during our church services. This ministry has been a great blessing to our church family and always lifts our hearts closer to God. It also keeps our young people involved and offers them another place for service.

We are still raising funds for a four-cylinder vehicle. Our four vans are wonderful for our routes, but they are overkill for daily tasks and making visits. Again, we appreciate your prayers in this matter. Also, please continue to pray for our safety and for these precious people whom God has called us to serve. We are praying for you.

Sincerely,

Robert Wilson
