Work in Pakistan

In Pakistan, 870 individuals recently received Christ—a powerful movement of faith in a region where the Gospel is rarely heard. Along with this life-changing decision, they were also trained to use the clean-water system, enabling them to bring safe, life-sustaining water to their villages. Through both physical and spiritual transformation, entire villages are now experiencing hope like never before.

Peru Opportunity

We're raising \$1 million to launch a 5-year initiative that will bring clean water to 5,000 rural communities across Peru. Your support powers the production, deployment, and long-term use of our proven purification systems. Help us ensure sustainable access to safe drinking water for 60-plus years. Please pray for this opportunity as we work to see what God would have us to do.

From Sickness to Salvation—Mohammed's Story

Mohammed, a businessman from Egypt, traveled to Liberia on a business trip when he unexpectedly became sick. In desperation, he found help in a local village, where one of our clean-water systems was being used. After drinking the clean water and recovering from his illness, Mohammed experienced more than just physical healing—he trusted Christ as his Saviour! Since then, he has not only embraced his new faith, but he has also committed to giving back and to providing water systems for other villages in need, so other lives could be changed, just like his was.

In Christ's service,
